ELDER CARE REVIEW

MARCH 2025

MEDICAID UPDATE

IMPORTANT INFORMATION FOR CDPAP HOME CARE SERVICES (Consumer Directed Personal Assistance Program)

There are new procedures and requirements being implemented with respect to CDPAP. To access the program in New York after March 1, 2025 all patients must enroll in Public Partnerships, LLC. Public Partnership, LLC is the only fiscal intermediary in New York.

In order to receive CDPAP services a person must be enrolled with New York State Medicaid

- CDPAP allows recipients to choose their home care aides
- CDPAP aides are used for skilled care needs such as insulin injections, medication dispensing and colostomy bag changes

Patients can enroll by –

- Calling customer support at PPL at (833) 247-5346
- Using the Home Online System at PPLfirst.com/cdpap
- Working with a CDPAP facilitator such as an independent living center
- Attending an in person or virtual registration session

New applicants can apply on or after March 1, 2025. Patients already on CDPAP must transition by March 28, 2025. Anyone not registered will have their services terminated.

For further information contact Dr. Frank G. D'Angelo on his cell at (516) 375-9956 or at the office number below.
